Test Report

Test No. CT1901901G

Customer Name	: الشركة الكندية للقوى الكهربائية (مشروع مستشفى السلاب)
Customer Address	: ١٢ شارع طارق يحيى الهرم الجيزة

Received Date	: 09/07/2019
Test Date	: 10/07/2019
Issue Date	: 15/07/2019

MCL Standard Info.	
Nomenclature	: Coating Thickness Gauge
P/N	: Positector 6000
S/N	: 607776
Due Date	: 13/05/2020

Item To Be Tested.	
Nomenclature	: ماركة قنديل - Galvanized steel sample للصلب
Sample Dimensions	: 20cm20cm x 1 mm

Environmental Conditions (Room Conditions)	Ambient Temperature	: 23±2°C
	Relative Humidity	: 29±4 %
	Barometric Pressure	: 998hPa

Traceability Statement

The standards used to perform this test are traceable to standards defined, maintained, and disseminated by the (NIS) or other international standards organizations or have been derived from accepted values of natural physical constants.

Test Method

The above sample was tested utilizing MCL Standard(s); The sample was tested according to test procedure No. MCL-Coating Thickness-01, Issue Date 01/03/2010, which is based on international standard reference ISO 2808. & ASTM E 376.

Tested By

Ali Elwa
Eng. Ali Elwa
Lab. Engineer

Test Report

Test No. CT1601901/Z

Item Condition	: Good.
Special Customer Requirement	: Yes.

Test Results:

Side: 1 Number Of Readings: 15

Variable	Reading Sample	
	g/m ²	Micro Meter
Mean Coating thickness	232.5	33.2
St. dev	4.4	0.6
Min. Coating Thickness	228.1	32.6
Max. Coating Thickness	239.8	34.3

Side: 2 Number Of Readings: 15

Variable	Reading Sample	
	g/m ²	Micro Meter
Mean Coating thickness	112.5	16.1
St. dev	3.2	0.5
Min. Coating Thickness	108.7	15.5
Max. Coating Thickness	115.7	16.5

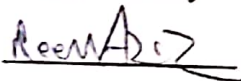

Final Results For Both Sides

Average coating thickness for galvanized steel sheet on both sides: $345.0 \pm 15.4 \text{ g/m}^2$

Uncertainty Statement

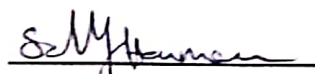

The results of the test report are shown above. The expanded uncertainties associated with the test are also included. The expanded uncertainty values are calculated at a 95% confidence level (K=2) or coverage factor for T - distribution.

Test Report

Test No. CT3311901G

General Contractor	: شركة سيك
Consultant	: المجموعة الاستشارية شاكرو ECG
Project	: مجمع البنوك بالعاصمة الادارية

Received Date	: 28/11/2019
Test Date	: 09/12/2019
Issue Date	: 10/12/2019

MCL Standard Info.	
Nomenclature	: Coating Thickness Gauge
P/N	: Positector 6000
S/N	: 607776
Certificate No.	: 1159/63/2019
Due Date	: 14/05/2020

Item To Be Tested.	
Nomenclature	: Galvanized Steel Sample
Sample Dimensions	: 36 cm x 59 cm x 0.9 mm

Auxiliary	
Nomenclature	: Foils
ID	: MCL - CT- 01
Certificate No.	: 341/63/2019
Due Date	: 12/02/2020

Environmental Conditions (Room Conditions)	Ambient Temperature	25°C
	Relative Humidity	33%
	Barometric Pressure	996 hp
